The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

The Reissue Declaration is defective because it is not in conformance with 37 CFR 1.172 (see MPEP 1410.01). Specifically, 37 CFR 1.172 requires that the “declaration made by the inventor or inventors except as otherwise provided (see §§ 1.42, 1.43, 1.47)”. As the original inventor has not signed the declaration, apparently due to the inability to contact the same (see the Declaration of Ala J. Leszinske, attached to the declaration), the provisions of 37 CFR § 1.47(b) must be satisfied. The provisions of 37 CFR § 1.47(b) stipulate that “Whenever all of the inventors refuse to execute an application for patent, or cannot be found or reached after diligent effort, a person to whom an inventor has assigned or agreed in writing to assign the invention, or who otherwise shows sufficient proprietary interest in the matter justifying such action, may make application for patent on behalf of and as agent for all the inventors. The oath or declaration in such an application must be accompanied by a petition including proof of the pertinent facts, a showing that such action is necessary to preserve the rights of the parties or to prevent irreparable damage, the fee set forth in § 1.17(g), and the last known address of all of the inventors. An inventor may subsequently join in the application by filing an oath or declaration complying with § 1.63.”

As no petition, no proof of diligent effort, no last known address of the non-signing inventor, and no fee pursuant 37 CFR § 1.17(g) has been submitted, the Reissue Declaration is defective.

Claims 1-41 are rejected as being based upon a defective reissue Declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.172.

The nature of the defect(s) in the Declaration is set forth in the discussion above in this Office action.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,246,893 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.
